

KFANDRA Admin Guide

A short guide for KFANDRA staff to the in-app **Admin** section. No technical knowledge needed — you do everything from inside the app. It is **view-only** for now: you can see what players have submitted, by session date and by player.

Technical tasks — changing point values, managing players, deploying — live in a separate **Developer Guide** (`developer-guide.md`) for the developer.

1. Who can open it

Only **KFANDRA staff** accounts can open the Admin area. A normal player who tries to open it is simply sent back to the home screen. If you need staff access, ask the developer to set it once.

2. Opening the Admin section

1. Sign in to the app as usual (phone number + 4-digit PIN).
2. Go to `/admin` on the app address — e.g. <https://kfandra-track.vercel.app/admin>. Tip: bookmark it or use *Add to Home Screen* so it's one tap away.

You'll land on the **Admin** dashboard with a **Submissions** card. Tap it.

3. View submissions by date

Choose **By date** → a **session date**. For that session you'll see:

- **every current player** (not just those who logged in),
- their **Arrival** and **Confirm** points (order-of-arrival and order-of-confirmation) and their **Total**,
- a greyed "**not submitted**" marker for anyone who hasn't logged that session.

The line at the top tells you how many submitted, e.g. *"1 of 2 players submitted."*

These are the **order points only** — they depend on who showed up, so they go up as more players submit. They are not the player's whole MMG score.

4. View submissions by player

Choose **By player** → **a name**. You'll see that player's **MMG sessions** (the date, their confirmation/arrival number, and how many games they logged), plus how many **gym** and **diet** days they've recorded.

5. What you cannot do here yet

The Admin section is **view-only** for now. Changing point values, editing the words on screen, or managing players is still done by the developer (see the **Developer Guide**). In-app editing is planned for a later update.

Private — KFANDRA staff only. Keep this guide and the app internal to KFANDRA.
